

New Products for June 2009!

The **Softie** is now available as two sizes – “Standard Hole” for mic diameters ranging 19-22mm and Large Hole for mic diameters of 24-25mm

The re-designed Softie Mount (Now the **Softie Lyre Mount**) is a state-of-the-art universal shockmount for microphone diameters ranging 19-25mm. The Softie Lyre Mount incorporates the InVision Lyre technology with a robust, one size fits all cradle that effectively replaces the rubber donuts. *There is a significant improvement of handling and noise specs!*

The Softie Lyre Mount with PG Handle will also come with a Mogami/Neutrik mic tail at no additional cost.

New Products for June 2009!

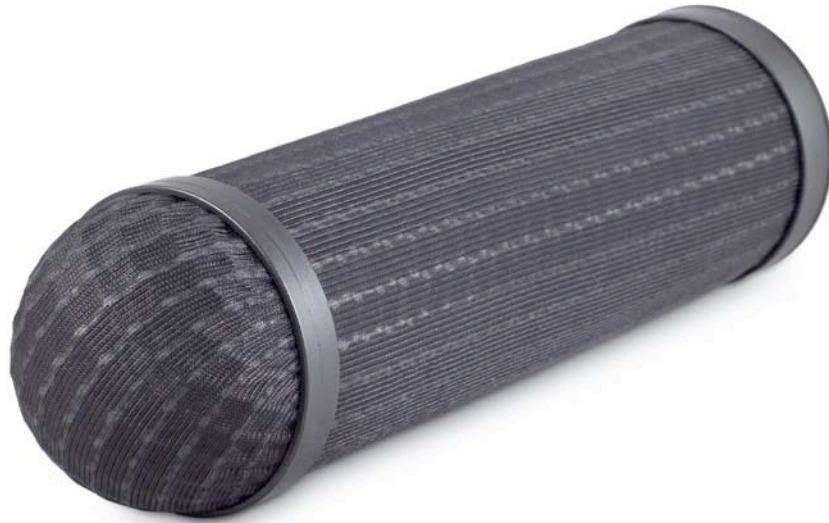

The **InVision Video** combines the Lyre cradle from the Softie Lyre Mount with a 360 deg swivel base hot-shoe or 1/4" adaptor.

The **InVision Video** is a state-of-the-art universal shockmount for microphone diameters ranging 19-25mm. The Softie Lyre Mount incorporates the InVision Lyre technology with a robust, one size fits all cradle that effectively replaces the rubber donuts. The mount is extremely lightweight and virtually unbreakable.

InVision Video mounts replace the Rycote MultiMounts and Lightwave Audio MiniMount MM-USC.

New Products for June 2009!

The perfect camera-mount companion for the InVision Video Mount is the freshly designed **Rycote Minscreen**. This extremely effective, low profile windscreen offers two levels of wind protection with the addition of a **Miniscreen Mini Windjammer**.

The Rycote Minscreen offers rationalized sizes that mirror Softie Front sizes up to 18cm in length and a universal fit for diameters 19-25mm.

The re-designed Rycote Miniscreens replace the Lightwave Audio Minscreen selection.

New Products for June 2009!

The new Rycote Foam windscreens offer a great selection of hi-quality foam choices for a wide range of microphones. Most of the Rycote Foam Windscreens are available as standard foam or with a velour-like covering for increased wind protection.
