

Rycote MiniScreen and MiniWindjammers

A new range of Mini Windshields with optional short fur covers (MiniWindjammers for MiniScreens) designed to provide excellent wind protection for microphones mounted on cameras.

The Rycote MiniScreens are black, slip on fabric/mesh windshields that have a universal mounting disk at one end, and an open cell acoustic foam front support disk, making them suitable for most onboard camera microphones, and also a wide range of external shotgun microphones.

The MiniWindjammers for the MiniScreens are manufactured from short black 10 mm fur and are elasticated at one end for easy fitting.

Benefits:

- Designed to fit microphones between 19-27 mm in diameter
- Provide wind attenuation of up to 20 dB's (up to approximately 23 dB's with fur cover)
- Lightweight and durable
- Have a low profile (55 mm diameter) on camera
- Protect the microphone from damage
- Available in 4 different lengths: 10 cm, 12 cm, 14 cm and 18 cm

Specifications:

- Weight: 51g (1.8 oz)
