## VT100 Cardioid Microphone

### VT100 Cardioid Microphone

The VT100 is designed for clear accurate voice reproduction for vocalists, lecturers, stage and television talent. The low-profile design is ideal for applications requiring minimum visibility and is easily hidden in clothing or hair.

The microphone capsule unit is detachable from the mounting base.

It comes in the waterproof VTO box with 2 accessories:

- Clip (360 degrees rotatable)
- Windscreen
